Eyes and Spectacles (Classic Reprint) (Paperback)

By McVon Rohr

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Eyes and Spectacles An attempt has been made in the accompanying book to bring together the most important points about spectacles. In the modern science of spectacles the chief importance must be laid upon vision with moving eyes (looking about); it was therefore necessary to consider in the first place the eye itself, and also perspective as a form of perception by means of which the arrangement in space of the outer world became manifest to the observer. This is dealt with by the introduction of the perspective bundle of rays with its apex at the centre of rotation of the eye, and is further more clearly explained and illustrated by means of an assumed - generally plane - projection surface. The second and most important section of the book deals with spectacle lenses, and in this the two problems which are so important in the modern theory of spectacles are dealt with, namely, the increased clearness of vision of ametropic eyes and the alteration of direction of the object perceived. In the single glass...
