Reviews

Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 102 pages. OCLC Number: (OCoLC)156788334 Subject: Nursing home patients -- Abuse of -- Prevention -- Government policy -- United States. Excerpt: . . . Homes with deficiencies at the A, B, or C levels are considered to be in substantial compliance with federal quality requirements, while homes with D-level or higher deficiencies are considered noncompliant. A noncompliance period begins when a survey finds noncompliance and ends when the home either achieves substantial compliance by correcting the deficiencies or when the home is terminated from Medicare and Medicaid. Since 1998, the deficiencies cited during standard surveys have been summarized on CMS's Nursing Home Compare Web site, and CMS 17 subsequently added data on the results of complaint investigations. These data are intended to help consumers select a nursing home that takes into account the quality of care provided to residents. CMS and the states can use a variety of federal sanctions to help Range of Federal encourage compliance with quality requirements ranging from less severe Sanctions sanctions, such as indicating the specific actions needed to address a deficiency and providing an implementation time frame, to those that can affect a homes revenues and provide financial incentives to return to and 18 maintain compliance (see table 3). Overall, two sanctions - CMPs and DPNAs - accounted for 80 percent of federal sanctions from fiscal years 2000 through 2005. 17 See <http://www.medicare.gov/NHCompare>. 18 In addition to federal sanctions, states may impose their own sanctions under their state licensure authority.
