

How to Create New Ideas: A Comprehensive Course in the Art and Science of Creative Thinking (Paperback)

Filesize: 8.76 MB

Reviews

It is really an incredible publication which i have possibly read. It is amongst the most incredible publication i actually have read through. I found out this pdf from my i and dad recommended this publication to discover.

(Abigale Ruecker)

HOW TO CREATE NEW IDEAS: A COMPREHENSIVE COURSE IN THE ART AND SCIENCE OF CREATIVE THINKING (PAPERBACK)

Createspace, United States, 2011. Paperback. Book Condition: New. 216 x 137 mm. Language: English . Brand New Book ***** Print on Demand *****.What s this book all about? Look around you. What do you see? Metal, wood, plastics, paper, paint? Look around again, from a different vantage point. What do you see this time? Machines, buildings, tools, books, pictures? Once more. look again, from still another point. Now what do you see? Ideas! Ideas that transformed old, familiar things into new things, new things of utility, safety, beauty; ideas that produced greater efficiency, pleasure, security, comfort, spirituality, leisure, health. The day that you have fixed the regular habit of looking at things in this third fashion will be the day that you have really begun to be a highly creative person. In truth, this Third Look is very nearly a definition of Creative Thinking. If you would like a more formal definition, here is the one that I prefer: Creative Thinking is the development of new ideas which will satisfy some expressed or implied need of mankind. That s what this is all about. Who? Me? Well, that leaves me out. Why, I could never write a Crime and Punishment, or develop a polio vaccine, or compose a Fifth Symphony, or invent a rocket motor, or conceive a Theory of Relativity, or design a UN Building, or win a Nobel Prize, or anything like that! Is this what you have just said, or are saying, to yourself? If so, all right; so be it. Perhaps you are not another Tolstoy, or Salk, or Beethoven, or Einstein, or who-have-you. And quite possibly you may never create a planet-rocking innovation, no matter how much you might wish to do so. (How will you ever find out whether you can or cannot, by...
